# Activity 1: School Subjects and Careers

---

## FOR THE TEACHER:

### Introduction

The purpose of this activity is to help students:

- Identify careers related to school subjects that interest them
- Gain in-depth knowledge of one or more occupations, including education and training requirements
- Become familiar with the career information and interviews available in Career Cruising

### Setting the Stage

Classroom discussion can focus on the link between school subjects and careers. For example, ask students which subjects they are or are not planning to take next year and what influence they think this will have on their career prospects.

### Starting the Program

Go to [www.careercruising.com](http://www.careercruising.com). Enter your username and password in the spaces provided, and click on Log In.

# Worksheet 1: School Subjects and Careers

Page 1 of 3

On the Main page, click on Explore Careers and then on Search By School Subject. Choose your favorite subject.

Optional: You can also click on the level of education that you are planning to pursue – high school, community college/vocational, or university. The level you select will influence the list of careers. For example, if you select high school education, you will eliminate careers like lawyer, biologist, fashion designer, and engineering technologist, which typically require a university or college education.

**Scroll through the list and click on a career that interests you.**

**Career:** \_\_\_\_\_

**1. Read the Job Description section. Answer the following questions:**

What duties do people in this career typically perform?

---

---

What skills do they require?

---

## Activity 2: Using School Subjects in the Workplace

---

### FOR THE TEACHER:

#### Introduction

The purpose of this activity is to show students how the subjects and academic skills they learn in school are important in the workplace. It can be used not only in a careers class, but also in any class or subject to which you would like to add a career education component.

This activity can be used in one of two ways. First, you can have all your students focus on the subject area you are teaching and the occupations related to it. Alternatively, you can broaden the activity and have your students select their favorite subject area and related occupations.

Listed below are the 11 school subjects used to organize occupations within Career Cruising:

**Arts & Music**  
**Business**  
**Computers**  
**English**

**Family & Consumer Sciences**  
**Languages**  
**Math**  
**Physical Education**

**Science**  
**Skilled Trades**  
**Social Sciences**

#### Setting the Stage

Classroom discussion can focus on the relationship between school subjects and careers. For example, ask students if they think the subjects they are studying will help them in their future careers. What is the relationship between education and career choices?

#### Starting the Program

Go to [www.careercruising.com](http://www.careercruising.com). Enter your username and password in the spaces provided, and click on Log In.

## Activity 3: Using Career Matchmaker

---

### FOR THE TEACHER:

#### Introduction

The purpose of this activity is to show students how to use Career Matchmaker, an interactive career interest inventory. In particular, students will learn how Career Matchmaker provides individualized feedback on their career choices

#### Setting the Stage

Classroom discussion can focus on how career assessments should be seen as tools for finding suitable careers, rather than as “tests” that supply the final word on students’ futures. Students should be encouraged to answer the second round of Career Matchmaker questions for the best results. Students should also be encouraged to answer the questions based on what they enjoy doing rather than what they are good at.

#### Starting the Program

Go to [www.careercruising.com](http://www.careercruising.com). Enter your username and password in the spaces provided, and click on Log In.

## Worksheet 3: Using Career Matchmaker

Page 1 of 3

On the Main page, click on the Assessments button in the menu bar at the top of the page, and then click on the Career Matchmaker link.

Read the instructions on the Introduction page, then click Start!

Answer the questions. (Do your best! The more thought you put into these answers, the better your results will be. If you need more information about a question, click on the More Info button beside the question.)

After you answer the first 39 questions, you will come to the Career Suggestions page which lists the careers that are suitable for you based on your responses to the questions.

We strongly suggest that you answer the second round of questions as well. Click on the blue Answer More Questions link in the Improve Results section on the right side of the Career Suggestions page. Answer as many additional questions as you can, and then click the gray View Career Suggestions So Far button to see your updated list of career suggestions.

Saving your results: When prompted, name your Matchmaker results and save your career suggestions to your portfolio. You can also save your results at any time by clicking on the grey Save To My Portfolio button. If you want to save your results but don't have a portfolio, you will have to create one when you try to save. If you are not able to create a portfolio, ask your teacher or counsellor for help.

## Activity 4: Your Career Ideas and Career Matchmaker

---

### FOR THE TEACHER:

#### Introduction

The purpose of this activity is to help students understand their interests and how they relate to career choices. It also encourages them to look beyond their preconceptions about careers and investigate alternatives they may not have considered before. Finally, students will become more familiar with Career Cruising's interest assessment tool, Career Matchmaker, and learn how it can provide individualized feedback on their career ideas.

#### Setting the Stage

Classroom discussion can focus on two issues: the relationship between people's interests and their career choices; and how much (or little) we really know about various careers. Ask students which occupations they are thinking about pursuing. Then ask them how much they know about those occupations. How do they know they will really like those careers? There are hundreds of occupations to pursue, yet many students only think of a handful when imagining their future career paths.

## STAGE 1:

### Your Career Choice

On the Main page, click on Explore Careers.

In the box beside Search For Careers, enter the name of a career you would like to pursue or have seriously considered for yourself (*e.g. lawyer, carpenter, fashion designer*). Then click Go!

**Once you have found a career, write the name below.**

Career: \_\_\_\_\_

**1. Before learning more about your career choice, write down three things you think you would like about this career.** (*e.g. on-the-job activities, work environment, or other interesting aspects*)

---

---

---

---

Note: At this stage of the activity, you do not have to do any research; just write down your thoughts on this career. In the third stage, you will learn more about this career and how it matches up with your interests.

## STAGE 2:

### Identifying Your Interests

Click on the Assessments button in the menu bar at the top of the page, and then click on the Career Matchmaker link.

Read the instructions on the Introduction page, then click Start!

After you answer the first 39 questions, you will come to the Career Suggestions page which lists the careers that are suitable for you based on your responses to the questions.

## Worksheet 4: Your Career Ideas and Career Matchmaker

We **strongly** suggest that you answer the second round of questions as well. Click on the blue Answer More Questions link in the Improve Results section on the right side of the Career Suggestions page. Answer as many additional questions as you can, and then click the grey View Career Suggestions So Far button.

Saving your results: When prompted, name your Matchmaker results and save your career suggestions to your portfolio. You can also save your results at any time by clicking on the grey Save To My Portfolio button. If you want to save your results but don't have a portfolio, you will have to create one when you try to save. If you are not able to create a portfolio, ask your teacher or counsellor for help.

### STAGE 3:

#### Matching Up Your Interests with Careers

##### 1. Does your career choice appear in the list of career suggestions?

Yes \_\_\_\_\_ No \_\_\_\_\_

If your answer is **Yes**, click on it.

If your answer is **No**, click on the blue See How Other Careers Match Up With My Answers link in the Other Options section on the right side of the page. Enter the name of your career choice in the box beside Search For Careers, and click Go! Click on the career name.

##### 2. Once you have clicked on the career, a chart titled Suitable For You? will appear. From this chart, write down any Central and Secondary Aspects to which you answered Like or Like Very Much.

## Activity 5: Using Career Selector

---

### FOR THE TEACHER:

#### Introduction

The purpose of this activity is to help students:

- Learn how they can use factors like working conditions, education, core tasks, and income to sort occupations and find suitable career choices
- Gain in-depth knowledge of one or more occupations, including day-to-day working conditions
- Become familiar with the features and information available in Career Cruising

#### Setting the Stage

Classroom discussion can focus on the importance of factors such as income, education, and working conditions in determining career choices. Ask students which factors they feel are most important when making decisions about their career.

#### Starting the Program

Go to [www.careercruising.com](http://www.careercruising.com). Enter your username and password in the spaces provided, and click on Log In.

## Worksheet 5: Using Career Selector

---

On the Main page, click on Explore Careers, then click on Career Selector.

Select your favorite school subjects (*preferably 2 to 3*).

Click on the Career Clusters button (or the grey Next button). Select 2 to 3 areas in which you would be interested in working.

Click on the Type Of Education button (or the grey Next button). Select the type(s) of education you plan to pursue.

Click on the Core Tasks button (or the grey Next button). Be sure to read all 20 core tasks. Choose 3 to 5 tasks you would like to do regularly at work.

Click on the Earnings button (or the grey Next button). Select the minimum level of income you would like to make. (Remember that selecting high levels of income may eliminate many careers that you might otherwise find interesting.)

Click on the Working Conditions button (or the grey Next button). Select working conditions you could **NOT** tolerate.

Now click on the View Results button to see careers that match your selections. (If you receive 0 matches, try clicking on the View Close Matches tab.)

**Scroll through the list and click on a career that interests you.**

## Activity 6: Comparing Careers

---

### FOR THE TEACHER:

#### Introduction

The purpose of this activity is to help students understand which criteria are important to them as they make career decisions and why. In a side-by-side comparison of two career options, students evaluate their interest in each career based on the following criteria: work tasks, working conditions, potential earnings, and education and training requirements. At each stage, students are asked to choose between the two occupations based on the information available to them and reflect on why they have made that choice. Not only do students gain in-depth knowledge of the attributes that are unique to their career choices, but they also learn to think critically about the factors that influence career decision making.

At the end of the activity, students are asked to interpret the changes in their career choices and prioritize which of the criteria are most important to them at this stage of the career decision-making process. They are also encouraged to reflect on other possible factors that may influence their career choice and to project how their priorities may change as a result. Ultimately, students learn that career choices are not usually made on the basis of a single criterion, but instead, are influenced by multiple factors that constantly need to be re-evaluated as students gain more knowledge about career options and the decision-making process.

#### Setting the Stage

Classroom discussion can focus on the decision-making process and the factors that influence the types of decisions that students make. Introduce the subject by asking students to identify factors that influence their everyday decisions, such as what to wear. Ask students about some more important decisions that they have made or are in the process of making, such as which courses to select for the following year, and how and why the factors that influence those decisions could change. Students should realize that the criteria used to make decisions changes based on context and the information available to them. Knowing how and why certain factors influence decisions is an important element of the career-planning process.

**Note:** We recommend that students keep two browser windows (or tabs) open when gathering the information for the side-by-side comparison. Opening each career profile in a separate window or tab will help students move through this activity more efficiently and effectively.

## Activity 7: Career Clusters Research Project

---

### FOR THE TEACHER:

#### Introduction

The purpose of this activity is to help students:

- Learn how careers can be grouped together into clusters based on common characteristics
- See how these career clusters can be used to discover and explore new career possibilities
- Learn about some of the commonly used ways of grouping occupations

#### Setting the Stage

Classroom discussion can involve asking students to think of three careers that are related to one another. Select students to present their three careers and describe why they think they are related. Introduce the idea of career clusters and explain their importance. Choose a career cluster and have students suggest careers that might fit into the cluster. For your reference, the career clusters used in Career Cruising are the following.

**Architecture & Construction**  
**Arts & Culture**  
**Business & Finance**  
**Computers & Telecom**  
**Education & Social Services**

**Fashion & Design**  
**Law & Government**  
**Medical & Health**  
**Natural Resources**  
**&Transportation**

**Science & Engineering**  
**Skilled Trades**  
**Service Industry**  
**Sports & Recreation**

## Activity 8: Career Fair Project

---

### FOR THE TEACHER:

#### Introduction

The purpose of this activity is to help students:

- Demonstrate an in-depth knowledge of selected fields of work and occupations
- Learn how to work effectively in teams or groups
- Discover how Career Cruising and other computer technologies can be used in research projects and presentations.

#### How the Activity Works

Career Cruising divides all of the occupations in the database into 11 clusters: Law and Government, Medical and Health, Skilled Trades, etc. The class should be divided into 11 groups of two to three students. Each group will be responsible for preparing and giving a presentation on their career cluster. The presentation should cover:

- General information on the cluster as a whole
- A more in-depth examination of one or two individual occupations.

Presentations can include handouts, visuals, work-related tools, etc. Students should also be encouraged to be creative in their presentations.

Much of the research can be completed using Career Cruising. However, students should be encouraged to do research in the library or on the Internet as well.

## ASSIGNMENT

Your group is responsible for making a presentation on one of the career clusters in Career Cruising. Part of your presentation should be about the cluster as a whole, including topics such as:

- The types of careers that are included in the cluster
- What these different careers have in common
- Where people in these occupations work
- How much income people in this cluster can earn
- What the labour market is like for people in these clusters (*e.g. are there any “hot” areas with lots of jobs available?*)
- Where to get more information (*e.g. helpful websites, books, newspapers*)

The other part of the presentation should be focused on one or two specific careers within the cluster. You may want to pick careers that you think are interesting or that other people may not be familiar with. Your presentation should cover:

- The kind of work or tasks people in the career perform
- The tools, instruments, or equipment they use
- Where they work
- How much income they earn and factors that affect their income
- The education and/or training needed to get into the career
- Where to get more information on the career (*e.g. helpful websites*)
- What real people in the career have to say about it (what they like or dislike about the career, what advice they have for people who want to get into the career, etc.)

You may use handouts, visuals, and other “props” to make the presentation more interesting.

## RESEARCH

You can use Career Cruising to find out which careers are in which clusters and to do research on individual careers. Further research can be done in the library or on the Internet.

## USING CAREER CRUISING

On the Main page, click on Explore Careers, then click on Search By Cluster.

Click on your cluster.

You will see a list of the careers in that cluster. If you want to learn more about a specific career, click on it.

## Worksheet 8: Career Fair Project

---

Page 2 of 2

Each specific career profile includes in-depth information on working conditions, education, income, and career paths, as well as links to other sources of information. There are also two interviews with real people in each occupation. Click on the names in the bottom left of the screen to view the interviews.

### **USING LINKS**

You can use the links in Career Cruising as a starting point for your Internet research. Go to the Other Resources section of the career profile you are researching and click on the listed links.

If you would like to do additional research on the Internet, you can use your favourite search engine to search for information on the career and career cluster you are researching. Professional and trade associations, unions, colleges, and government websites usually have the most accurate information.

## Activity 9: Career Interview Project

---

### FOR THE TEACHER:

#### Introduction

The purpose of this activity is to introduce students to informational career interviews. In Stage 1 of the exercise, they explore one of the multimedia career interviews in Career Cruising in order to familiarize themselves with the types of questions to ask and the general approach to take. In Stage 2, they take what they have learned and apply it in a “live” career interview with a parent or friend of the family.

Students completing this activity will learn about specific occupations and become more familiar with the realities and language of the workplace.

If you are short on time, you may wish to skip Stage 1. Instead of having students answer the questions in Stage 1, simply have them browse through a multimedia interview to familiarize themselves with the idea of informational career interviews.

#### Setting the Stage

Classroom discussion can focus on how to decide which career suits you. Ask students what they would do if they were interested in a career and wanted to learn more about it. What is the best way to learn more about a career? Have they ever asked their parents or friends of their family about their jobs?

### STAGE 2: LIVE INTERVIEW

Now that you have viewed one of the interviews in Career Cruising and learned about the kinds of questions you can ask in a career interview, the next step is to try an interview with an adult you know (e.g. a parent or a friend of your family).

When doing the interview, remember that it is important to be well-organized and professional. The person you interview is taking time out of his or her busy day to help you. Listen carefully to what the person says; you may be surprised by what you learn! You can use the Interview Question sheet provided to help you with the interview.

## Activity 10: Discovering Your Work Skills

---

### FOR THE TEACHER:

#### Introduction

One of the greatest problems educators face is helping students bridge the gap between school and work. Many students cannot see the connection between what they are learning now and their future career. As a result, they may lack confidence in themselves and their ability to contribute in the workplace.

The purpose of this activity is to help students make links between their daily activities and work skills. In particular, they will:

- See the importance of their curricular and extracurricular activities
- Gain a better understanding of their skills
- Learn about career options related to their skills

#### How the Activity Works

Students use the A Day In My Life chart to set out a sample day in their life, being sure to include all curricular, extracurricular, social, and at-home activities. Then they use the Activities And Work Skills chart to link their activities to work-related skills. (Both charts can be found in the pages immediately following this activity.)

The next step is to use Career Cruising to search for and learn about careers in which those skills are important.

#### Starting the Program

Go to [www.careercruising.com](http://www.careercruising.com). Enter your username and password in the spaces provided, and click on Log In

# Worksheet 10: Discovering Your Work Skills

## STEP 1: A DAY IN MY LIFE

Fill in the A Day In My Life chart. In the Activities column, write down the things you do in a typical day. Be sure to include all classes, sports, social events, clubs, hobbies, chores, after school jobs, etc. (*You may use the Activities and Work Skills chart as a reference.*)

## STEP 2:

Using the Activities and Work Skills chart, match your activities with the related work skills.

## STEP 3:

Now go back to your A Day In My Life chart and write down the work skills that match your activities (*put the work skills beside each activity, in the right-hand column*).

## STEP 4:

1. Write down the work skill that appears most often in your day:

Work Skill #1 \_\_\_\_\_

2. Write down the work skill you would most enjoy using in a job:

Work Skill #2: \_\_\_\_\_

3. Write down the work skill you think would be most important in getting a good job:

Work Skill #3 \_\_\_\_\_

## STEP 5: USING CAREER CRUISING/WORK SKILL #1

On the Main page, click on Explore Careers, then click on Career Selector.

Click on Core Tasks and select the work skill/core task that appears **most often** in your day (*Work Skill #1 above*).

Click on View Results. Career Cruising will show you a list of careers where people use the skill you selected.

# Activity 11: Using My Skills

---

## FOR THE TEACHER:

### Introduction

The purpose of this activity is to:

- Introduce students to the My Skills component of Career Matchmaker
- Help students identify their work skills
- Make students aware of the benefits of using more than one type of career assessment

### Setting the Stage

Classroom discussion can focus on the importance of skills in the workplace. Ask students to take a few minutes to think about skills they have that could be useful in the working world. (*Examples of work skills should be provided to help get students started.*) Then have students share some of their skills with the class. Next, ask students how they are able to identify their skills. The difficulties with self-assessing skills should be discussed.

An alternative topic for discussion is the benefits of using more than one type of career assessment (*interests, skills, values, personality, etc.*). Ask the class to identify potential problems with relying on just one type of career assessment.

### Starting the Program

Go to [www.careercruising.com](http://www.careercruising.com). Enter your username and password in the spaces provided, and click on Log In.

# Worksheet 11: Using My Skills

---

On the Main page, click on the Assessments button in the menu bar at the top of the page, and then click on the Career Matchmaker link.

Read the instructions on the Introduction page, then click Start!

After you answer the first 39 questions, you will come to the Career Suggestions page which lists the careers that may be suitable for you based on your interests. Take a few minutes to look through the careers on your list.

**Select a career from the list that you are interested in.**

Career: \_\_\_\_\_

**1. Click on the career that you are interested in and read through the information that is available (Job Description, Working Conditions, Interviews, etc.).**

Write down five things about this career that you find appealing.

Click on Back To Matchmaker Suggestions to go back to your career suggestions list. Now click on the Complete My Skills link in the My Skills section on the right side of the page to begin the skills assessment component. Read the introduction and then click Go! to begin answering the skills questions. Answer all 45 questions.

After answering the skills questions, you will return to the Career Suggestions page where you will notice that all of the careers on your list have been assigned a skills score.

**2. What is the skills score that appears beside the career you wrote down above?**

- \_\_\_\_\_ A – Very Good Match
- \_\_\_\_\_ B – Good Match
- \_\_\_\_\_ C – Fair Match
- \_\_\_\_\_ D – Questionable Match
- \_\_\_\_\_ E – Poor Match

---

For each of the skills you wrote down, try to think of school subjects and activities outside of school that could help you increase your skill level.

Example:

**Skill:** Presenting ideas and information in writing

**Ways to improve my skill level:**

Work hard on all of my written assignments in school  
 Try to read the newspaper every day  
 Write a short story on why I love sports

## Activity 12: Exploring Apprenticeship Training

---

### FOR THE TEACHER:

#### Introduction

The purpose of this activity is to help students:

- Learn about the apprenticeship system
- Gain in-depth knowledge of one or more apprenticeship programs in their province
- Become familiar with the apprenticeship information available in Career Cruising.

#### Setting the Stage

Classroom discussion can focus on apprenticeship training. Ask students if they are aware of apprenticeship training as an option and how it differs from college and university programs. What are some of the advantages of becoming an apprentice?

#### Starting the Program

Go to [www.careercruising.com](http://www.careercruising.com). Enter your username and password in the spaces provided, and click on Log In.

## Activity 13: Post-Secondary Research Exercise

---

### FOR THE TEACHER:

#### Introduction

The purpose of this activity is to help students:

- Learn about colleges and universities and the programs they offer
- Become familiar with Career Cruising's education and training resources
- Learn how to use the Internet to find important education-related information

#### Setting the Stage

Classroom discussion can focus on the importance of getting accurate information about colleges and universities and the programs they offer. Ask those students who know what type of post-secondary education they plan to pursue if they are aware of the entrance requirements for schools and programs they are interested in. An alternative topic for discussion is the usefulness of the Internet for finding education and career-related information. Ask the class what difficulties they have encountered while searching for information on the Internet.

## Activity 14: Learning Styles

---

### FOR THE TEACHER:

#### Introduction

The purpose of this activity is to help students:

- Identify and analyze their preferred learning styles
- Understand the relationship between learning styles and academic success
- Understand the relationship between learning styles and career choices

#### Setting the Stage

Classroom discussion can begin with students describing their ideal studying or learning environments. Ask them to draw on their own study habits and preferences. The variety of answers will help students realize that people have different learning styles and preferred ways of absorbing and retaining information.

As a class, brainstorm why it is important to understand one's learning style. Learning styles impact not only school performance, but also our success in the workplace and in the world. While learning styles don't reflect our actual abilities, they do influence the way in which we learn to perform work and social tasks, manage our time and resources, and how we interact with co-workers and family members who have different learning styles.

Some students may discover that they have more than one preferred learning style. In this case, students can choose from the traits, tips, and strategies associated with each of their preferred learning styles in order to complete the activity. Be sure to emphasize to all students that there is no right or wrong learning style.

After completing the worksheet, ask students—as a class or in small groups—to discuss their individual learning styles and compare them with other students' preferred learning styles. Students should be able to describe the three key learning style preferences (visual, auditory, and tactile), and identify learning strategies and conditions that complement each style. This will help students to consolidate their learning. Remind students that they all have the capacity to learn in different ways.

## Complete the Learning Styles Inventory assessment.

On the Main page, click on the Assessments button, then on the Learning Styles Inventory link. Enter your first and last name in the spaces provided and click Start Now!

Read the instructions on the Introduction page and start the assessment. Remember, there are no right or wrong answers; simply select the answer that you feel best applies to you.

Saving your results: When prompted, save your Learning Styles Inventory results to your portfolio. You can also save your results at any time by clicking on the grey Save To My Portfolio button at the bottom of the page.

**What kind of learner are you?** \_\_\_\_\_

### 1. Read the Learning Styles profile. Answer the following questions:

Which parts of the profile *best* describe the way that you learn and retain new information?

---

---

Are there parts of the profile that *do not* accurately describe the way that you learn and retain new information? Which ones?

---

---

**2. Think about how your learning style relates to your performance at school.** The Learning Styles profile offers lots of suggestions to help you learn in your preferred style.

Which suggested strategies do you already use? How successful do you think they are in helping you learn and remember information?

---

---

---

## Worksheet 14: Learning Styles

---

Which suggested strategies can you begin using now to help you learn and remember information?

---

---

---

**3. Now try to think of some more tips that you could use in the following situations:**

You have a test in two weeks that is worth 30% of your final grade. What strategies could you use to help you study for the exam?

---

---

You're having a hard time absorbing information in class. What suggestions could you make at the next student-teacher conference that would help you and your teacher develop a learning plan to suit your learning style?

---

---

You have to write a 5-page book report, and you're feeling a little overwhelmed. What tips can help you prepare to tackle the project and write the paper?

---

---

---

**4. Think about how understanding your learning style relates to career possibilities.** How can knowing how you learn help you make important career decisions and succeed in the workforce?

### 5. Read the Job Description section.

Write down two or three tasks that people in this occupation perform.

---

---

---

Describe how you could learn to perform each task in a way that complements *your* learning style. (e.g. *adjusting technical equipment: auditory learners could listen to someone explain how to adjust the equipment; visual learners could read the manual; tactile learners could test out the equipment*)

---

---

---

### 6. Read the Working Conditions section.

Write down two working conditions that are common for people in this occupation.

---

---

Describe how you could adapt the working conditions you listed above so that they support *your* learning style. (e.g. *working in an office: auditory learners could reduce noise distractions by closing their office door; visual learners could reduce visual distractions by clearing away clutter in their office or cubicle; tactile learners could take frequent breaks or walks.*)

## Activity 15: Why Study This? A Cross-Curricular Game

---

### FOR THE TEACHER:

#### Introduction

The purpose of this activity is to help students:

- Continue to develop career exploration skills
- Reflect on the skills and content knowledge they're acquiring in a school subject area
- Make the connection between what they are learning in school and the world of work

#### Setting the Stage

Ask students to recap what they have been learning in class. Highlight not only content knowledge (key concepts related to your subject), but also transferable skills such as problem solving, decision making, teamwork, planning, researching, effective communication, and any others that they have acquired in your class. Explain to students that the subjects they're studying in school are providing them with the skills and knowledge they need to succeed in their future careers.

For the competition, students investigate two occupations: one for which the required skills and knowledge are subject specific (making the link between the occupation and the school subject clear), and one that requires slightly more lateral thinking about transferable skills. You can select your own sample occupations from Career Cruising or use these sample occupations:

- |   |   |
|---|---|
| • English (Language Arts) – print journalist and travel agent | • Geography – forestry technician and parking enforcement officer |
| • Math – personal financial planner and carpenter             | • Languages – interpreter and concierge                           |
| • Science – veterinarian and baker                            | • Arts – art/music therapist and marketing specialist             |

As teams research, provide students with clues by drawing their attention to major skill areas or subject matter that they should consider in their responses. Prompt them with hints such as *“Have you thought about how someone in this occupation might need presentation skills/repair skills/time management skills?”* or any other skill or knowledge they've gained in your class. This will help them expand their enquiry beyond the most obvious connections.

Although this activity is designed to be completed in one class, you can alter its presentation to suit your schedule. If you feel that your class will need more time to research the occupations or complete the competition, you can set the stage for the activity the day before the competition. To extend this activity, you can devote a portion of class time throughout the semester or year to “bonus rounds” during which teams research additional occupations. Each successive occupation should be slightly more challenging and reflect new skills and content knowledge learned in class.

## Activity 15: Why Study This? A Cross-Curricular Game

---

Finally, while the competition teaches students to make connections between school subjects and pre-selected occupations, the optional extension portion of the activity encourages students to think about how what they're learning in class relates to an occupation that interests them.

### What You Need:

- Activity Worksheets
- Internet access and login information for Career Cruising (or printed copies of the occupation profiles—all relevant sections—selected for this activity)
- Pen and paper/chalk and chalkboard for keeping score

### Before You Start:

Players should be divided into teams of four or five. Team members will share the responsibility for researching the occupations and coming up with examples of how someone in each occupation uses what students are learning in this class on the job. Each team member will keep a list of their team's answers, and we strongly suggest that students maintain a list of other teams' answers.

Each team elects a representative to join the presenters' panel to share their team's answers with the rest of the class. Team reps will present their team's answers, but will be unable to record other teams' answers (to prevent adding new examples to their existing list); therefore, other team members are responsible for providing the team rep with the complete list of examples and answers accumulated during the competition.

### The Competition and Points:

Once teams have finalized their list of answers, a representative from each team joins the presenters' panel at the front of the class with the list. Each rep presents his or her team's answers to the class. (A time limit may be set by the teacher.) To discourage bluffing, reps should be prepared to submit their list of answers to the teacher for verification.

The teacher will keep track of the number of acceptable answers from each rep. There is no limit to the number of examples players can provide for each skill or concept they've identified (for example, players can offer several different examples of how a teacher uses problem-solving skills on the job). Each correct answer is worth one point.

### Challenges:

After a team rep has presented his or her team's answers, another team can challenge the validity of one or more of the answers. Acceptable grounds for a challenge: The answer does not reflect the skills or content knowledge associated with the school subject, or the answer is not an example of how people in the occupation use the school subject on the job. *The teacher settles all challenges.*

When challenged, team reps can call on the rest of his or her team to help defend an answer.

Be judicious with your challenges! If the teacher decides that the team's answer is acceptable, the team that challenged the answer loses a point. The team that provided the correct answer is awarded one point for the answer, and an additional point for successfully defending the answer.

## Rules: Why Study This? A Cross-Curricular Game

---

If a team's answer is deemed unacceptable by the teacher, the team that successfully challenged the answer is awarded a point, and the team with the incorrect answer is not awarded a point.

### **Winning:**

The team that earns the most points at the end of the competition wins!

## Worksheet 15: Why Study This? A Cross-Curricular Game

Page 1 of 4

Use Career Cruising to learn more about the occupations that your teacher has assigned for this competition. Once you have read the occupation profiles, write down as many examples of how someone in each occupation uses what you are learning in class on the job. Be prepared to defend your examples; other teams may challenge you! The team with the most correct examples wins!

On the Main page, click on Explore Careers, and enter the name of the occupation in the Search box.

You can use information from any section of the profile or At A Glance page, but the Job Description and the interviews (especially Question # 3) are particularly helpful.
